[IPC Library Pastors](#) | [History](#) | [Vision](#) | [Library](#)

The IPC Library consists of several hundred volumes collected over more than fifty years. It includes current editions as well as difficult-to-find and out-of-print volumes on a wide range of topics.

This amazing collection is housed within IPC in a spacious facility dedicated to function as a library, and is comfortably furnished for that purpose. The library is open to the public, although it is suggested that you call before visiting to ensure that the church will be open when you arrive.

An online library search is in the planning stages (to be accessed through another link under the library category menu) that will enable searching volumes by author, subject, and other criteria (such as keyword search).
